

Dear **Recruiting Team!**

I am particularly interested in this job as Technical Surveillance Counter Measures Professional.

I have spent the last 17 years working full-time as a Technical Surveillance Counter Measures Professional and now I am looking for work in the TSCM field.

I have worked in TSCM and related fields in the Ukraine since 2005, after graduating from the University with a degree in Information Security.

After the Russian invasion of Ukraine, I was evacuated along with my family (my wife also has experience as a TSCM assistant!). We are currently living in Germany. Unfortunately, all my professional equipment remained behind, but I still have my skills and knowledge. I have experience with Aaronia spectrum analyzers, NLJD, Flir, Delta-X, ST (different types), Svan and more.

I am currently looking for work, and would even be willing to relocate. If you are looking for a TSCM professional with huge practical skills in using non-destructive testing tools, research of EMF, acoustic research and intelligence countermeasures, please feel free to contact me. Now I'm living near Nurnberg airport and I am available to get to work as soon as possible.

I'm a highly motivated, self-starter with a detail-oriented, self-coaching and open to new opportunities. Good team-worker and hard-worker, flexible and resourceful.

I look forward to discussing my qualifications. I can be reached by email - zhepaloandrey@gmail.com or Online Chat App (Whatsapp, Viber, Telegram) +380662126699.

Thank you for your time and consideration. I look forward to the invitation for an interview.

Andrii Zhepalo
